

RESISTANCE WELDING

AccuBilt builds quality turn-key resistance welding systems for both robotic and dedicated applications. Our experienced engineers will work with you to build the ideal system to maximize your productivity. We offer complete design and build services of spot and projection welding equipment. AccuBilt can provide custom tooling to meet your specific resistance welding needs.

AccuBilt Offers:

- H-Frame Modular Resistance Welders
- Pedestal Resistance Welders
- Robotic TransGun Resistance Welding Systems
- Custom Dial Indexing Resistance Welders
- Automated Robotic & Dedicated Resistance Welding Systems

Standard H-Frame Resistance Welder

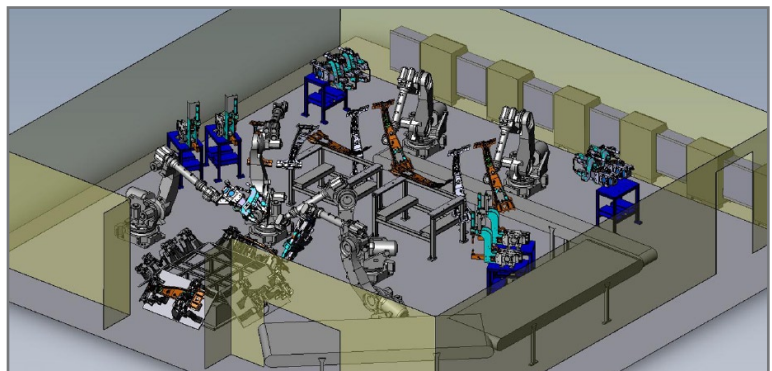

Pedestal Resistance Welder

H-Frame Modular Resistance Welders

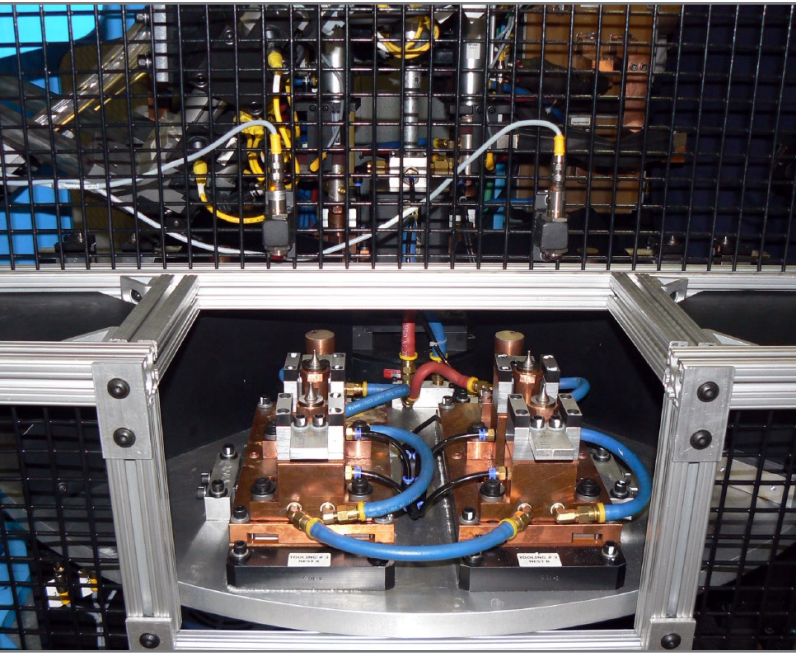

- Customizable
- Spot & Projection Welding
- AccuBilt or Customer Build Specs.

Standard Pedestal Resistance Welders

- Available with Multiple Controller Options
 - WTC/Medar, Unitrol, Entron, Dengensha

Automated Robotic Resistance Welding Cell

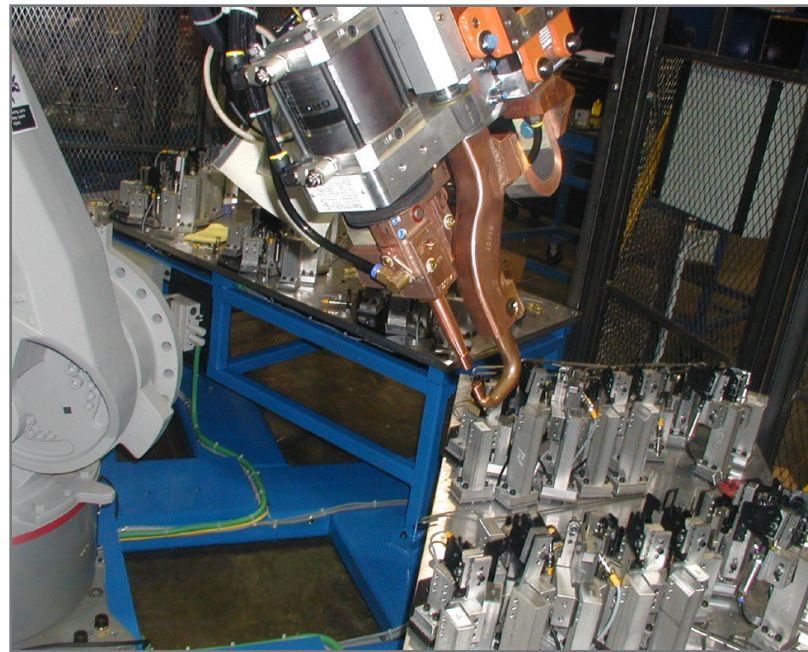

Custom Dial Indexing Resistance Welders

- Nut & Stud Feeding
- Error Proofing
- Auto Part Eject

Robotic TransGun Resistance Welding

- Custom Tooling
- Wire Frames
- Multiple Robot Options

Call us to discuss your specific application (517) 787-9353
